*Dear Fellow Future Health Professionals,*

---

Welcome back to another exciting school year! On behalf of the NDHOSA State President, Kyan Woodruff, and the entire State Officer Team, we are thrilled to extend a warm welcome to both returning and new members of the North Dakota HOSA family.

HOSA, or Future Health Professionals, is more than just an organization – it's a community of driven individuals who share a passion for healthcare, leadership, and making a positive impact in our world. As we embark on this journey together, we are excited to embrace the national theme for this year: #Dare to Create.

In a world that is constantly evolving, our ability to innovate and create is of utmost importance. The theme encourages us to step out of our comfort zones, challenge conventional thinking, and dare to create new solutions, new ideas, and new pathways to success. As members of HOSA, we are not just witnesses to change – we are the catalysts for it.

Throughout this school year, we will have numerous opportunities to engage in meaningful experiences, develop essential skills, and connect with like-minded peers who share our aspirations. From skill-building workshops to community service projects, from leadership development to competitions that test our knowledge, we are excited to embrace the spirit of #Dare to Create in everything we do.

Remember, your journey in HOSA is what you make of it. Be curious, be enthusiastic, and most importantly, be ready to challenge yourself. Let's create an environment where every member feels empowered to contribute their unique talents and ideas, pushing the boundaries of what we can achieve together.

We look forward to an inspiring and transformative year ahead. If you have any questions, ideas, or just want to connect, don't hesitate to reach out to any of us. Let's make this a year of innovation, growth, and positive change.

Dare to create, dare to lead, and dare to make a difference!

Warm regards,

State President  
North Dakota HOSA- Future Health Professionals
