North Dakota HOSA Mission
Encouraging North Dakota HOSA-Future Health Professionals to develop skills, commit to learning, and become thriving health care leaders in North Dakota Communities.

Inspire | Advocate | Lead
This student-led organization creates a local program of work to engage in community service, explore healthcare workforce opportunities, and lead opportunities for personal growth.

Local Chapters Increasing
The national theme for the school year 2022-2023 is "Beyond All Limits," which is what we are striving to accomplish. Five new chapters have joined ND HOSA, and we hope to exceed our 2021-2022 membership of 556.
